FLY FARTHER™

FLY SMARTER™

FLY SAFER™

The Zip-Flyer Zip-Trolley is the ultimate zip line rider trolley engineered for safety, efficiency and durability...built to maximize profitability for owners/operators.

- 100% Stainless steel construction
- Fits cable sizes 3/8" to 3/4"
- Trolley housing designed to engage Zip-Trolley Receiver
- Speeds up to 75 mph
- Grades up to 12%
- Compatible with most braking systems (including hand braking)
- Made in USA
- Optional configurations
 - ◊ Anti-Rollback or two way bearings
 - ◊ Comfortable, compact rider handle
 - ◊ Single and Dual line compatible
 - ◊ Sold separately or with other Zip-Trolley components
 - ◊ Zip-Flyer Hybrid zipSTOP

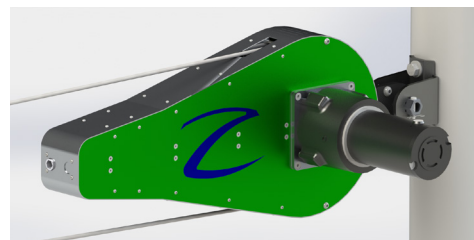

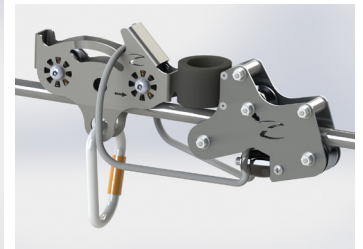

On its own the Zip-Trolley will transform your canopy tour/zip line operation, but combine it with our Zip-Trolley Receiver to capture riders in the braking zone, or combine it with other Zip-Trolley components to revolutionize your business.

The new Zip-Trolley System brings the industry proven safety and efficiency of Zip-Flyer's commercial zip line technology to canopy tours and zip lines the world over. Now everyone can afford the ultimate solution in safely releasing, riding, braking and maximizing rider throughput. Our complete system includes the Zip-Trolley, Zip-Trolley Receiver, Zip-Trolley Starting System, and the Zip-Trolley Magic Box.

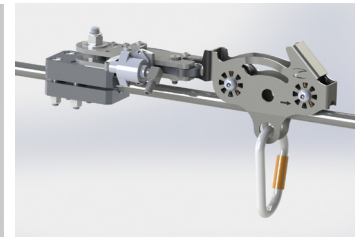

Zip-Trolley Receiver

- 100% Stainless steel construction
- Fits cable sizes 3/8" to 3/4"
